## 1-About Neo UV Black Light Glitter ps action

This action Make your photos extra fun with creative UV Black Light glitter effects. This package contains 2 version of actions (cs6 and cc) ,included 10 theme colors and one background theme effect. The action has been tested on Adobe Photoshop (English versions)CS6 ,CC2014, CC 2015, CC 2015.5, CC 2017 This action is specially made for photographers, graphic designer & artists...

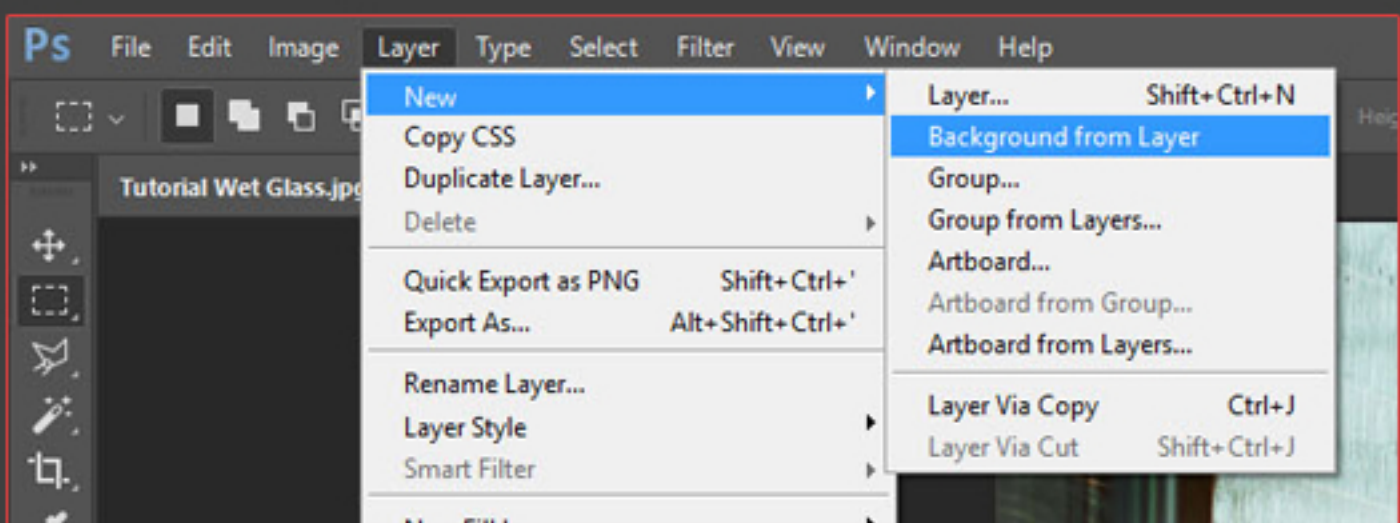

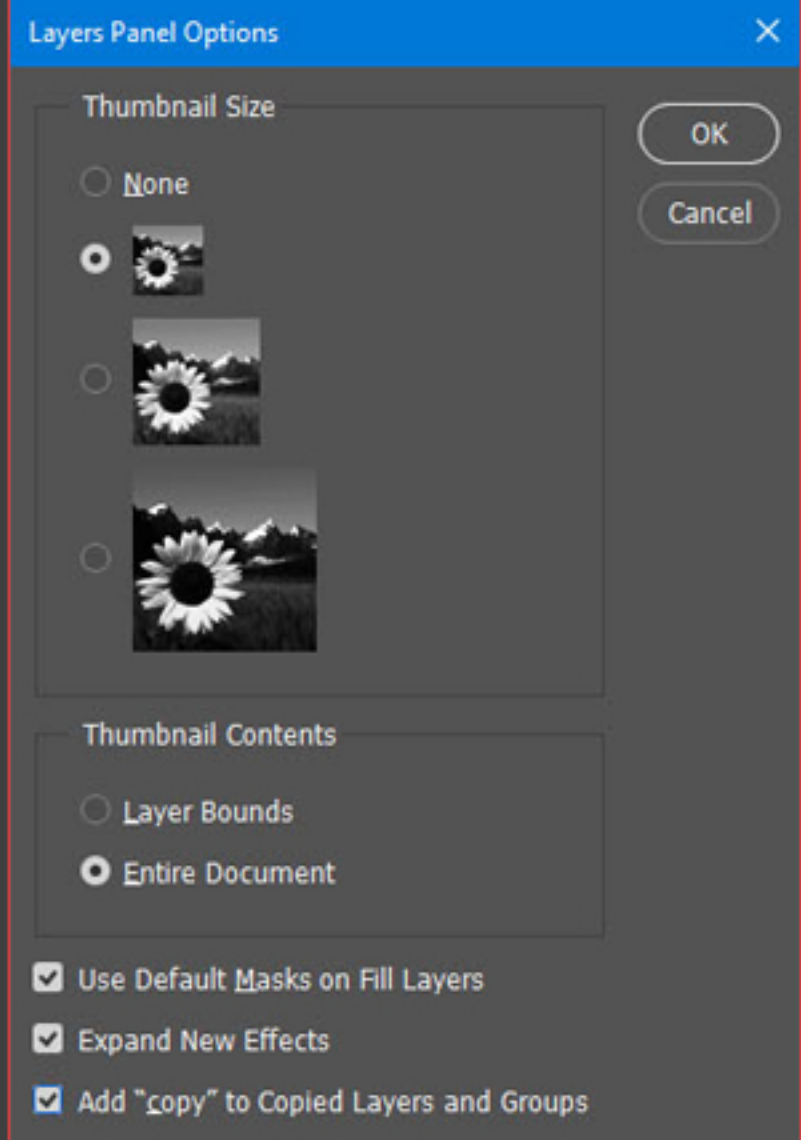

## 2.Before you run the action

First, open the subject photo on which you want to work. To open your photo, go to File > Open..., choose your photo, and click Open. Now, before we get started, we need to check a few things:

1-Your photo should be in RGB Color mode and 8 Bits/Channel. To check this, go to Image > Mode.

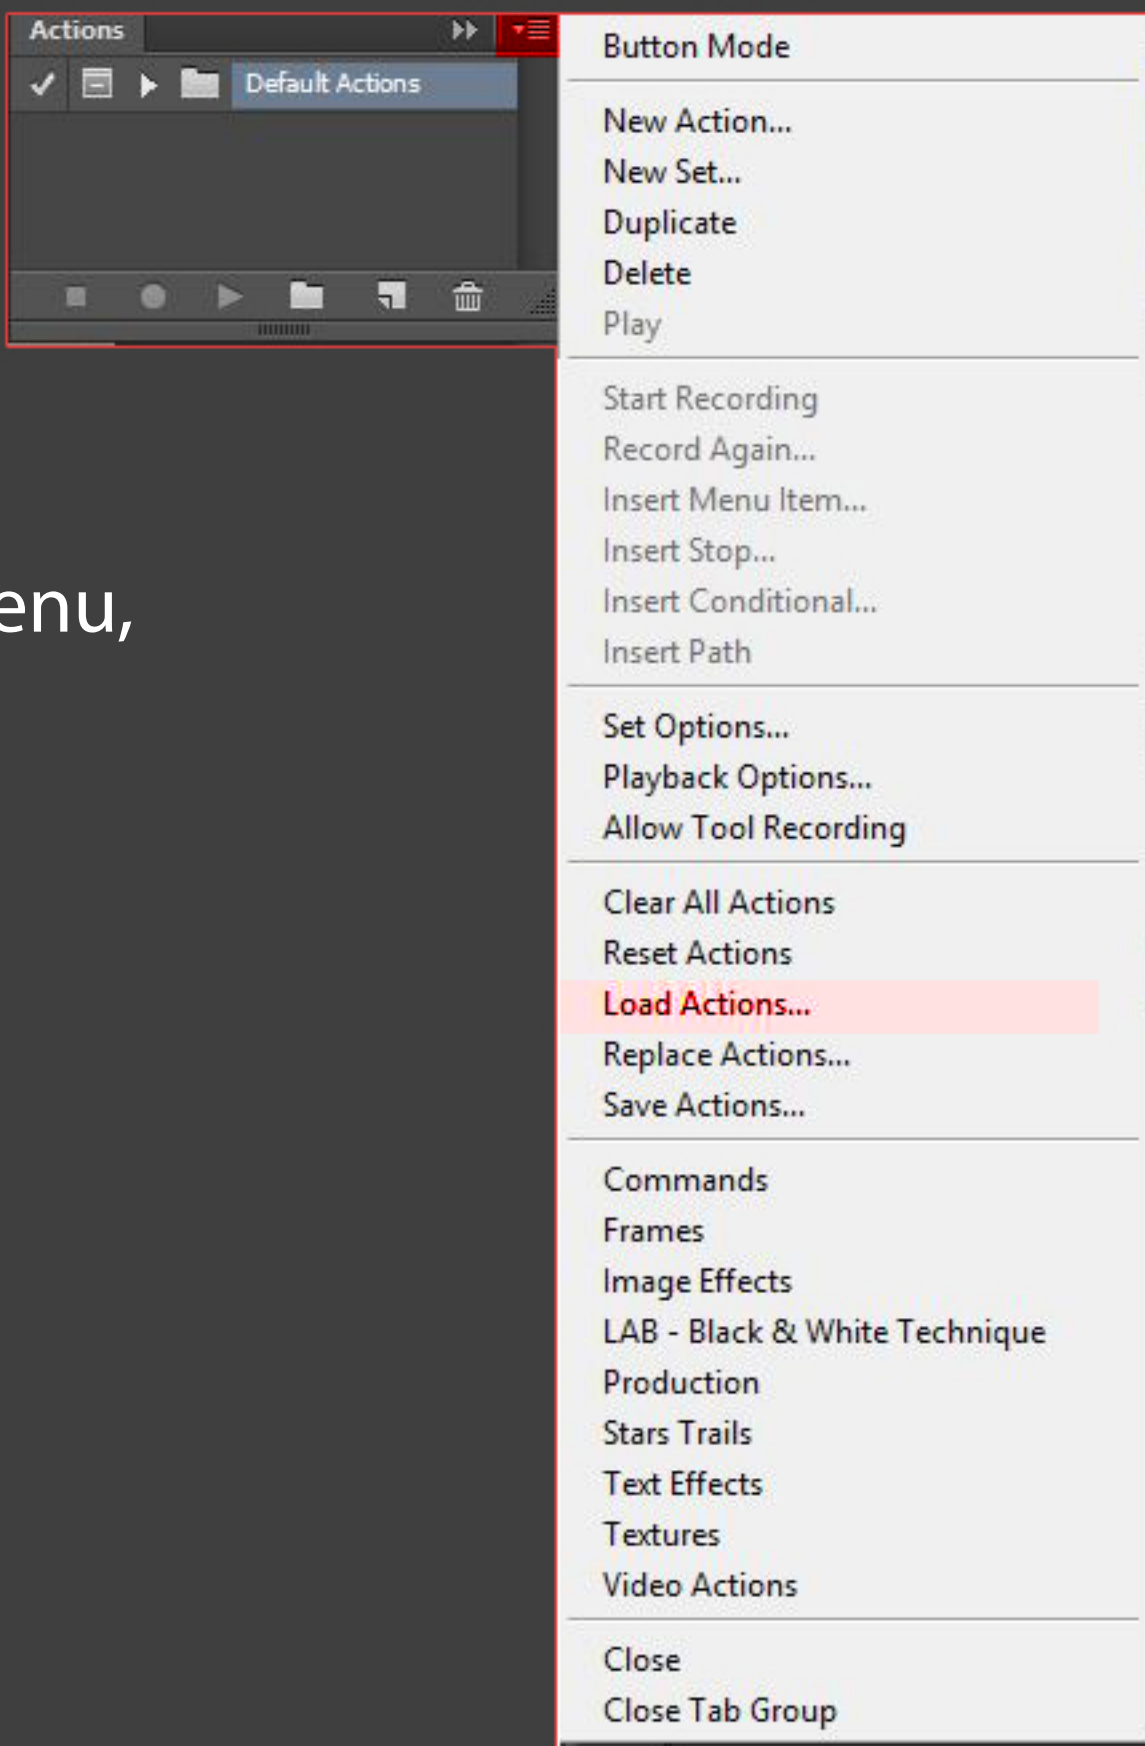

2-Your photo should be the Background layer. If it is not, go to Layer > New > Background from Layer.

3-Click the fly-out list of the Layers panels and click Panel Options .... Make sure Add "copy" to Copied Layers and Groups is checked.

## 3.How to install the action

1. Open your Photoshop and go to the Action Panel. If you don't find the Action Panel, please go to menu bar, select Window > Actions.

2. Load the Action Click the dropdown icon on the top right corner of the Action Panel to open the option menu, then click on "Load Actions" (see the picture below).

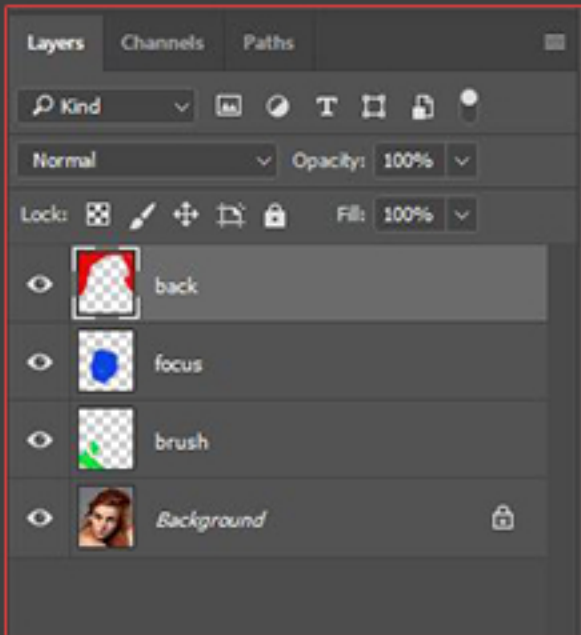

3. Now, select the action file (\*.atn) you wish to install. Click Load/Open button to complete the installation.

4. The action will now appear in your Action Panel and ready to use. Have fun!

## 4.How to run the action

1. Install the Action (see the instructions "How to Install the action").

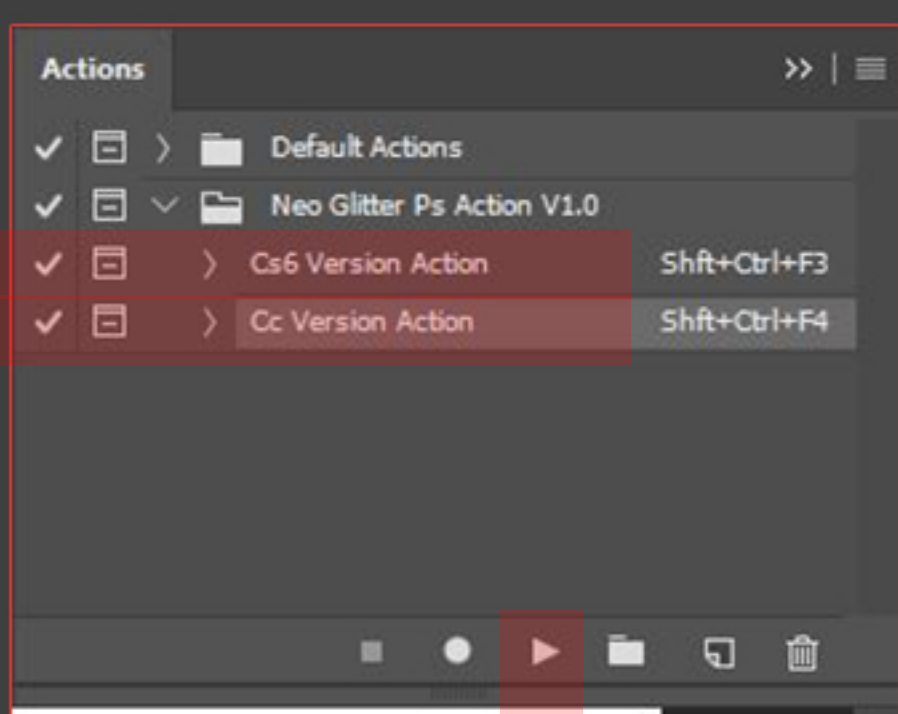

2. Open your photo in photoshop and make sure that your photo is set as background layer (Layer -> New -> Layer from Background).

3. Create three new layers above the background layer and rename them to "brush" and "focus" and "back".

4. As the brush layer is selected, brush the photo as you wish (you can select any kinds of brush and color).  
5. Select the focus layer and specify the photo( where you wanted to be focused) by using the brush tool in the focus area.  
6. Select the "back" layer and specify the photo( where you wanted to be background) by using the brush tool in the background area

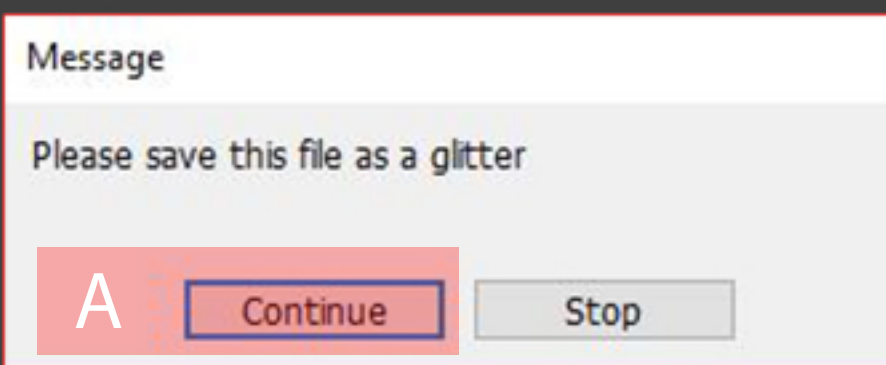

7. If you are using the photoshop Cs6 ,click on the CS6 version Action button

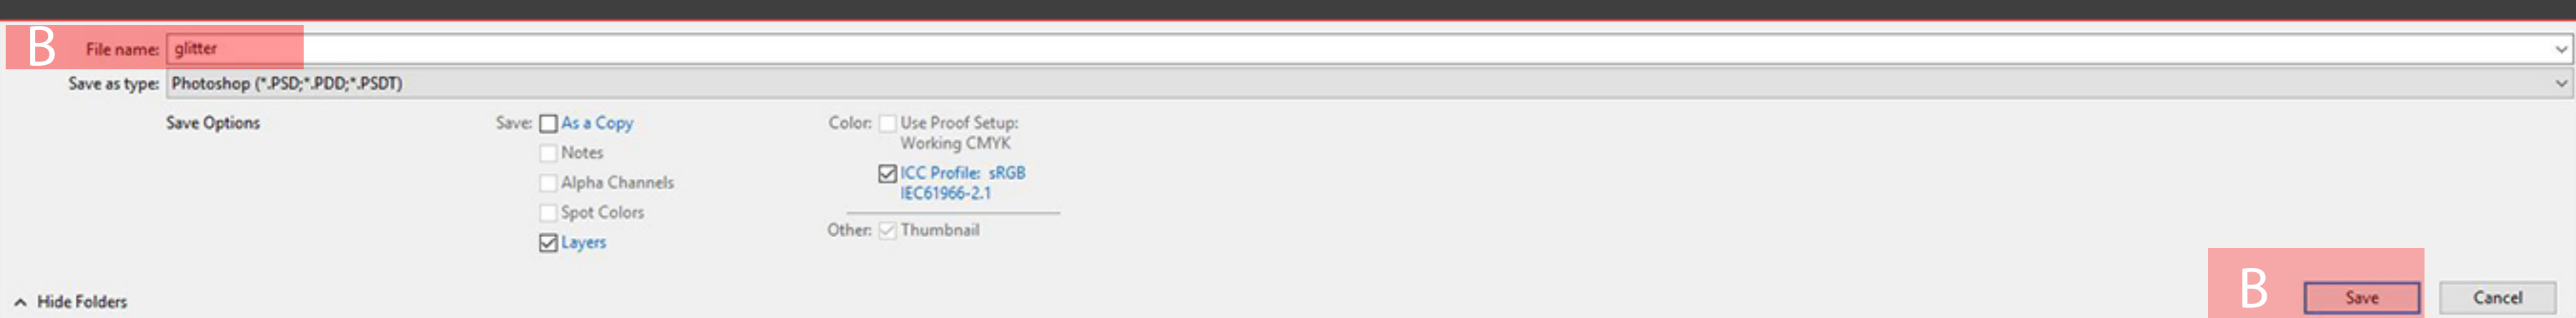

8.If you are using the photoshop Cc, click on the Cc version Action button.

9. Click play button on the action panel.  
10. Fill the requests during the action prosses as we mention below.
