

Drag, place or copy the new overlay of your choice as a new layer on top of your photo.

Resize the overlay holding down the key combination Shift.
Let go of the mouse when the layer is in the size you want.
Flip it horizontal if is necessary (right click on work area).

New 3D Extrusion from Selected Layer

New 3D Extrusion

Right click on the cloud layer
and click on the Rasterize Layer.

Using an Eraser Tool or Pen Tool remove unnecessary parts of the overlay.

Drag, place or copy the new overlay again, flip it horizontally and repeat the above actions again.

Here's what at me has turned out. I wish you creative success!
