:

[https://www.fontsquirrel.
com/fonts/crimson](https://www.fontsquirrel.com/fonts/crimson)

How to Replace images

02

Using Smart Object

Drag and drop Image via smart objects

Select the image layer / Group and then double click the thumbnail

Photoshop will pop-up a new window. Drag and Drop the image on layer ("image here")

After you drop the image. Save and Close that window. Image will change.
